

Beyond the Basics: Advancing Knowledge & Skills in Nursing

CNE course on Care for the Elderly (An INC accredited Continuing Nurse Education)

Background

📈 Population aged 60 years & above is expected to rise

👩 Training nurses will overcome unmet needs & open professional opportunities

Objectives:

To equip nurses with the knowledge and skills to deliver compassionate, evidence-based care for elderly across diverse settings.

Course Details:

📖 9 modules

🕒 30 CNE hours

💻 Online sessions + 📝 assessment tasks

Individual modules seamlessly merge with one another, creating a comprehensive course on Elderly Care.

Eligibility

Registered Nurses across government/private/charitable hospitals and academic institutions.

- ❖ Staff Nurses
- ❖ Nursing Superintendents
- ❖ Nursing academia & faculty
- ❖ Nursing Masters and Doctoral students
- ❖ Nurse care providers in Elderly Care homes and other care institutions.

Indian Nursing Council (INC) in the Continuing Nursing Education Regulations, 2019, has formalized the requirement of 150 hours of CNE every five years for license renewal.

Value additions

💻 **Live interactions:** Online sessions uniquely designed with live interaction between trainer and participants.

💰 **Affordable Modules:** Individual modules are attractively priced for all nurses.

🎓 **INC Accreditation:** This INC accredited certificate has a strong acceptance globally.

About Us

Health and Beyond Consultants (HAB)

Health and Beyond Consultants (HAB) expands the vision of the Health and Beyond Foundation (HABF), delivering locally relevant, cost-effective, and high-quality public health solutions across India and beyond.

HAB has been associated with large-scale training of health professionals. From e-learning to mentorship-driven classroom sessions, our training programs empower health professionals with knowledge, skills, confidence, and compassion. (www.healthandbeyond.org.in)

Jodhpur School of Public Health (JSPH)

The Jodhpur School of Public Health (JSPH) stands as a leading institution dedicated to advancing public health education, research, and innovation in India.

JSPH collaborates closely with JSPH Enterprise and the JSPH International Boston Institute for Global Public Health Inc. This triad operates at the intersection of global health systems, research, and capacity building, ensuring initiatives are grounded in real-world impact. (<https://josphinternational.org/>)

“I am seeing a rise in elderly admissions. This mandates that nurses like myself become more informed about geriatric principles & care. Our continuing education is important.”

Staff Nurse
