

## Beyond the Basics: Advancing Knowledge & Skills in Nursing

### International CNE course on Care for the Elderly (An Indian Nursing Council accredited Continuing Nurse Education)

#### Background

📊 Population aged 60 years & above is expected to rise

👩 Training nurses will overcome unmet needs & open professional opportunities

#### Objectives:

To equip nurses with the knowledge and skills to deliver compassionate, evidence-based care for elderly across diverse settings.

#### Course Details:

📁 9 modules

🕒 30 CNE hours

💻 Online sessions + 📄 offline assessment tasks

Individual modules seamlessly merge with one another, creating a comprehensive course on Elderly Care.

#### Eligibility- Open for all NRIs & other international participants

Registered Nurses across government/private/charitable hospitals/ Nursing academic institutions.

- ❖ Nursing academia & faculty
- ❖ Staff Nurses in hospitals
- ❖ Nursing Directors/Superintendents
- ❖ Nursing Masters and Doctoral students
- ❖ Nurse care providers in Elderly Care homes

Indian Nursing Council (INC) in the Continuing Nursing Education Regulations, 2019, has formalized the requirement of 150 hours of CNE every five years for license renewal.

#### Value additions

💻 **Live interactions:** Online sessions uniquely designed with live interaction between trainer and participants.

💰 **Affordable Modules:** Course of 9 modules is attractively priced. (*Inaugural discounts available*)

🎓 **INC Accreditation:** This INC accredited certificate has a strong acceptance globally.
